Dear Ms. Saxton and Rainville:

Thank you for your letter of October 29, 2001, commenting on the above permits. The issues raised in the letter are issues that the Clinic has raised previously, and for which the District has prepared a response. The permits have not been modified in response to your comments. I will send a detailed response to the issues raised in your letter by December 7, 2001.

The GRS permits have been modified in response to the facility's comments. The California Oils permit has been modified in response to internal comments. A copy of the letters to GRS and California Oils with the detail of the changes will be posted to our website when the permits are issued.

The District intends to issue the above Title V permits by November 30, 2001. I will enclose a copy of your comment and this response in our submittal to EPA. I will also send them a copy of the detailed response on December 7, 2001.

If you have any questions about this letter, please call me at (415) 749-4704.

Yours truly,

William de Boisblanc
